Coverage & Market

Wound Management & Prevention is circulated to advanced practice nurses and clinicians who specialize in the management of wounds, ostomies, incontinence, and related conditions. Over the past almost 4 decades, *Wound Management & Prevention* has played a key role in broadening and defining this multi- and interdisciplinary market.

Frequency: 12 times per year

Issue date: Second week of each month

Delivery: By mail; full-text articles available online to subscribers

Indexed in: MEDLINE and PubMed

Part of the  Wound Care Learning Network

New in 2019, the Wound Care Learning Network encompasses all of the wound care resources available through the auspices of HMP. Journal articles, continuing education sessions, videos, posters, and information about national and regional conferences are housed in one readily searchable website (woundcarelearningnetwork.com)

Departments

Children With Wounds

Vita Boyar, MD, provides practice insights and detailed case reports from her vantage point as a neonatal/perinatal/pediatric specialist.

Special Report

Occasional articles present timely, pertinent information on everything from unique new products and information from national/international associations to the impact of protocols and regulation on care provision.

Guest Editorials

Readers are invited to submit articles to voice their opinions and observations on the policies, people, and events that impact provision of care.

Sponsored Columns

Wound Management & Prevention publishes product-oriented columns on a rotating basis throughout the year. Clinicians and manufacturers are encouraged to contact the journal to provide content relevant to areas of interest.

1/3 page horizontal	7.875" x 3.75"	8.125" x 4"

Submitting Ad Materials

Digital ad files must be submitted at hmpglobal.com/ads.

To submit your ad, please complete the required fields and select the desired magazine and issue date from the drop-down menu. Next, upload the PDF/x-1a file and click "submit."

PDF/x-1a is HMP's accepted ad file format. A PDF/x-1a is an industry-standard term referring to a refined, press-ready, universally accepted PDF file created from a desktop publishing application.

HMP's PDF/x-1a file specifications at a glance:

- Fonts must be embedded.
- Images and colors should be grayscale color mode CMYK or grayscale, never RGB or LAB color modes.
- All files must be CMYK. Spot colors or RGB will be automatically converted by HMP. We cannot be responsible for color shifts that take place in ads that are not supplied as CMYK.
- Please specify if a PMS color is required. For pricing on special color combinations, please contact the publisher or sales representative.
- Maximum total ink density is 300%.
- Resolution must be 300 dpi for four-color or grayscale images.
- Resolution must be 1200 dpi or higher for bitmap images.
- The only acceptable ICC profile is U.S. Web Coated (SWOP) v2, or none should be applied.
- .125" bleed must be provided on all sides for bleed ads.
- Crop and/or registration marks should offset a minimum of .125".
- Transparency attributes need to be flattened when exporting the PDF.
- Ad should be supplied at the correct trim size.

If you have questions regarding material submission, contact
